## NEWS RELEASE

### **City of Falls Church Stormwater Survey Deadline Extended to Dec. 20**

The stormwater management survey deadline has been extended to Tuesday, Dec. 20. In November, the City of Falls Church Department of Public Works mailed a survey about stormwater management to every single-family detached home in the City. The survey is a result of the October 17 Town Hall Meeting regarding stormwater and flooding issues. Survey responses will help the Department of Public Works gain a better understanding of the drainage issues facing City residents. So far 26 percent of single-family homes have replied.

Instructions for completing the paper or online versions of the survey are included in the mailing. Respondents will need the individual Real Property Code provided in the letter in order to complete either version of the survey. Residents of single-family homes who did not receive the letter and survey should contact Allison Lohrenz, 703-248-5456, or [alohrenz@fallschurchva.gov](mailto:alohrenz@fallschurchva.gov). The online version of the survey can be accessed via Survey Monkey: <https://www.surveymonkey.com/s/DPWFallsChurch>.

The Department of Public Works plans to send a similar survey to townhomes in early 2012.
