Bicycle Routes for 2016

In the spring of 2016, City staff plans to refresh/install three bicycle routes in the City. The routes under consideration are noted above and shown in the map on the other side of this flyer.

All of these routes can be implemented without affecting on-street parking. Draft marking plans and street layouts are available for review on the project webpage, see web address above.

How Can I Get Involved?

Residents are encouraged to review the marking options, attend the workshop, and provide feedback.

What's Happening on May 7

Community members will be invited to review and provide feedback on the draft layouts and marking plans.
